There followed a lengthy debate about how the group would operate, membership and funding. It was agreed that the pc would seek pre-application planning advice from MDDC in the first instance. Councillor Clist was asked to seek this advice. It was also suggested that the group promote itself at the Annual Parish Meeting on 1st May to gauge what level of interest/support there may be. Finally, alternative venues were suggested utilising some existing premises, namely the area attached to the garages currently used for storage by the Scouts. The group will meet with Mr Calcraft to view the premises. It may be a more cost effective option to relocate this storage to the Parish Store and use this space for the Man Shed group.</p>	<p>SC</p> <p>RC</p>

<p>7. <u>County Council Report</u> Councillor Radford sent the following report:- Devon County Council has set the budget with a 1.99% increase plus a 2% increase because of the pressure on Social Care. This is the limit set by the Government to avoid triggering a referendum. I have set out below some of the more interesting points that you may be interested in.</p> <p>The County Council’s Cabinet is proposing to invest over £43 million of additional funding into front line public services in Devon in 2020/21. The full Council approved the proposals on February 20, Devon’s non-schools budget will rise to £541 million for 2020/2021, an increase of 8.7 per cent on the current year. The Cabinet proposals include additional investment in social care and health, children’s services, roads and drainage. If approved, the proposals will mean an extra £23.7 million for adult care and health, £11.5 million more for children’s services and £2.7 million for highways including £1 million to help deal with drainage issues on the County’s 8,000-mile road network. In total the County Council’s spending will rise by £43.1 million from £498 million in the current 2019/20 financial year. The budget proposals are a response to increasing demand on front-line services driven by a range of external factors including demographic and climate change impacts.</p> <p>Context The Government’s reaffirmed commitment to a fair funding review of local government is welcome. The continuing wide disparity in funding between counties and metropolitan areas requires tackling. Current Government funding per head of population is £258 for Devon compared to an average £421 for metropolitan councils and £556 for inner London boroughs. There has been a 72% real terms reduction in Government funding for Devon between 2010 and 2019/20. During that period of austerity, the County Council has reduced its spending by nearly £300 million and staff numbers by nearly 3,000. Through a combination of efficiencies, innovation and collaboration with other councils, Devon has managed</p>	

to protect many important public services during this time. All of Devon’s 50 libraries remain open, some with longer opening hours. The County has maintained a universal youth service and provided targeted support for the most vulnerable youngsters, and working ever more closely with health partners, the County has maintained services for the elderly and vulnerable adults.
 However, the demand-led pressures on all Devon’s front-line services continue to rise, exacerbated by demographic and climate change.

Devon County Council is one of 26 County Councils in England. The authority, which has 60 elected County Councillors, represents 795,000 residents and administers an area spanning 2,534 square miles, the third largest in England.

The Council is led by a Cabinet of nine senior councillors, chaired by the Leader of the Council, John Hart. The County Council works in partnership with eight District Councils, over 300 Town and Parish Councils, the Great South West region’s LEPs and neighbouring County and Unitary councils.

8. District Council Report

Councillor Clist gave a brief report:-

MDDC’s governance review is ongoing. The budget has been agreed. The planning department has confirmed there is plenty of scope for the development of the community open space (car parks, planting etc.) which would not require planning permission. However any structures would require planning. The gypsy and traveller site at Castle Hill was refused by the Planning Department and enforcement officers will be visiting the site shortly.
